

Could Not Eat or Sleep Made Well By PERUNA

Mr. William E. Denny, 1033 Park Ave., Springfield, Ohio, writes:
"I find great pleasure in writing you and thanking you for what Peruna has already done for me. I have been troubled with catarrh for years, and it had affected my head, nose, throat and stomach, that I could not eat nor sleep with any satisfaction.
"I have just taken three bottles. I can eat most anything and am greatly relieved of nervousness, so that when I lie down I can sleep without the least trouble. I recommend it to all those who are sufferers of that dreadful disease, catarrh."

BAKER TELLS OF FOUR MORE DAYS U. S. FRONT

Lorraine Line Is Close to German Positions—Hand Grenades Frequent.

Washington, Feb. 10.—In Secretary Baker's weekly review he comments as follows on the new American front in France.

"The sector in Lorraine where our forces are in contact with the enemy, continued relatively active throughout the week. Artillery duels took place intermittently but fog and heavy rain prevented infantry engagements.

"Our sharpshooters gave a good account of themselves, keeping the enemy papapets well cleared of Germans.

"One stretch of our line is very close up to the German positions. Here bombing and frequent exchange of hand grenades occurred.

"German airplanes made repeated attempts to push their reconnoitering parties over our lines but were invariably met with a hot fire from our anti-aircraft guns.

"Our forces have shown themselves well fitted for their tasks in the trenches and are rapidly becoming accustomed to the routine of trench warfare. The welfare of our troops, whether in the trenches or in rest depots, is the object of the immediate personnel concern of all our commanders. The rations for the men in the trenches, in spite of the enemy's attempt to break up our transport columns, have been regularly assured.

"The care of our wounded at our field dressing stations, as well as at our base hospitals, is being carried on with efficiency and scientific skill.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

ARTISANS TO REGISTER

**As a Measure of the Council
of National Defense.**

The Department of Labor of the U. S. Government at Washington, has selected the County Council of Defense to enroll all skilled workmen of almost every class in the United States Public Service Reserve. The Reserve is intended—

For all men who want to work to help win the war.

For men who are not content to be bystanders, but want to play their part in saving the world from brute force.

For men who are ashamed to sit by and see their neighbors go to the front—to die if need be—while they enjoy the luxuries of a peaceful home life.

For men who are ready, when the call comes, to give up jobs which are not vitally important and go to work where their country needs them, but at good wages.

The Reserve does not obligate a man to leave home. He is not drafted. By enrolling a man's name is put to record and his name is kept on file and indexed so if the government, or a government contractor, needs a certain number of men for a certain class of work these men can be communicated with and offered a position.

All classes are joining the Reserve; professional men, engineers, artisans, laborers of all kinds. Men especially needed are mechanics, artisans, skilled laborers of all kinds, men who can work with tools. There is great need for such men now. Every available man of this sort must be promptly enrolled or our country's war work will be retarded.

Only men who are ready and able to respond when an opportunity for service comes should enroll. The Reserve does not want to be swamped with records of men who do not mean business.

Men of draft age are not wanted if likely to be called soon. The Reserve wants men who are ready to work for good wages when work is offered. No obligation exists to respond to a call when it comes; the Reserve merely presents the opportunity, trusting to the judgment and patriotism of its members to accept. Will you enroll? If so, do it now.

Enrollment cards can be had by seeing J. B. Allensworth, chairman, or H. A. Robinson, member, Council of Defense for Christian County.
